APS THOR Grenade Launcher

COMPROMISE IS NOT AN OPTION

Step 1

Make sure the safety is on at all time unless you are ready to fire.

Step 2

Push the cocking lever down.

Step 3

Press down the barrel release button to open the barrel

Step 4

Barrel Opened

Step 5

Insert a charged 40mm Grenade Shells into the barrel

Step 6

Close the barrel and push the cocking lever up

Step 7

After the cocking lever is being pushed up, you are ready to fire
Safety Off, aim at the target and press the trigger to fire.

Repeat Step 1 ~ Step 6 again if you want to re-load and fire another new round of grenade

Enjoy playing with APS THOR Grenade Launcher
